

Your Partner in Employee Safety

Trust our expertise to protect your success

Service Insurance deeply values employees' safety and partners with our policyholders and agencies to prevent injuries before they happen. By focusing on key areas of your unique business, our professional Risk Control Advisors offer exceptional service and allocate resources towards effective risk control activities to increase employee safety, improve your loss ratio, and drive your business' profitability.

Risk Control Impact

Our experts will identify and assess risks, develop strategies, and create a safety-focused culture within your organization. By implementing our services, you can mitigate losses and improve your bottom line.

- **Reduce** workers compensation costs and improve profitability
- **Promote** positive safety culture and employee buy-in
- **Improve** the effectiveness of existing safety programs and injury prevention processes
- **Reduce** worker injuries related to specific loss drivers unique to each policyholder
- **Achieve** desired results via a collaborative approach

Risk Control Services

Our comprehensive resources and value-added services come at no extra cost and may include:
